Improve sustainability with our bio-sourced rheology additives

Today's world requires more sustainable solutions to develop formulations adapted to end-user's expectations.

CRAYVALLAC® RHEOLOGY MODIFIERS BIO-SOURCED CONTENT IN %

Powder coatings

PC 100%

Liquid coatings

PF 100%

ANTISETTLE CVP 100%

MT 98%

SF 96%

SUPER 95%

High-solid liquid coatings

EXTRA 85%

ULTRA 82%

Solvent-free liquid coatings

OPTIMA 92%

LV 91%

Adhesives & sealants

SLT 98%

SL 92%

SLX 91%

SLW 69%

Our key features:

- **Long experience** in developing and supplying additives
- **High bio-sourced content**
- **No compromise on performance**
- Surpassing standards based on fossil fuel sourcing

With new solutions for:

- **Adhesives & Sealants**
- **Solvent-free** protective and marine coatings
