

IMPROVE SUSTAINABILITY WITH OUR BIO-SOURCED ADDITIVES

Today's world requires more sustainable solutions to develop formulations adapted to end-user's expectations.

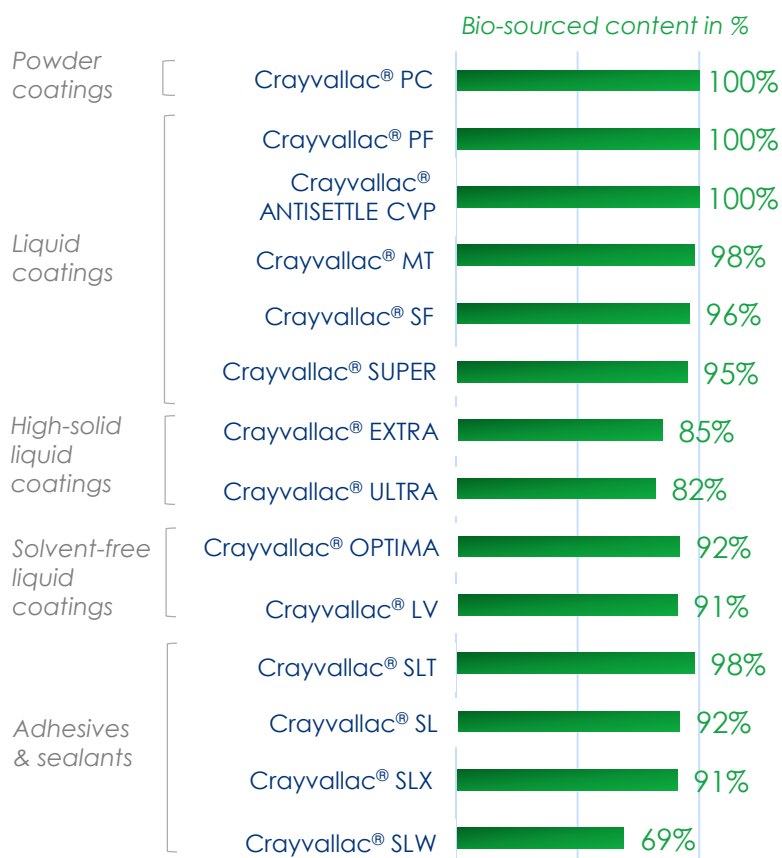

Our key features:

- **Long experience** in developing and selling additives
- Very high content of **bio-sourced** material
- **No compromise on performance**
- Surpassing standards based on fossil fuel sourcing

With solutions for:

- **Adhesives & Sealants**
- **Solvent-free** protective and marine **coatings**

Crayvallac[®] rheology modifiers

For more information about those products, please refer to our technical brochure on rheological additives or contact us.
